

In the specification:

On page 6, first full paragraph, the units of the dimensions should have been in English units (mils), not metric units (mm). Please replace paragraph starting on page 6, line 14 and ending on line 18 with the following amended paragraph:

Stud balls are typically twice the diameter of the bond wire. In one example, the bond wire diameter is ~~1mm~~
1 mil and the stud ball has a diameter of ~~2mm~~
2 mils. In one example, the thickness of the stud ball is approximately
~~1.5 mm~~
1.5 mils.
